Total Hours

Total Hours	406
ELT	235
Transport	37
Aircraft	118
Epirb	16

Year Review

FAA has rescinded our ability to fly non-CAP passengers

FY 2003 Goals

- Be better prepared by:
 - Training more IC's to reduce WMAO phone calling and reduce load of existing IC's
 - Improve training for the new Homeland Security Mission
- Improve reimbursement turn around (see below)
- Update IC Resource Notebook

CAWG & 9/11

- 54 aircrews standing ready within 2 hours
- 9/11 Security at Santa Monica Tower 6 persons used.
- 9/12-17 6 missions to Transfer Blood thru out the state, 25 A/C 111.4 hours, 67 Persons
- 9/12 Transport Fema Director 3 persons, 1 A/C 5.8 hrs

108's (Reimbursement form)

- The new form that just came out has been rescinded so use the May02 form. Wing commander rep now required to sign every 108 before being submitted to the Air Force.
- Most be filled out for corporate vehicles and aircraft for every reimbursable mission/SAREX/training
- Wing is **vising submittal deadline from 14 days to 7 days**. There should be no reason why a person cannot fill out a 108 when they arrive at home and get it in the mail the following day. 7 days then is a reasonable request and will get members money back in their pockets 7 days quicker
- **IC's are now required to submit mission/sarex paperwork within 14 days of the event**. This is a big change since there has not be a deadline for IC's. We hope this will reduce the turn-around time of 108 reimbursements considerably.

New Ops WebPages

CAWG ES has now its own page that can be accessed through the new Operations page which has a link on the main page of the CAWG website. The page currently contains the following links

- WMAO Standard Operating Procedure
- IC List
- Group Alerting Officers list
- Group WMAO Coordinators
- CAWG Mission Forms
